

On Friday 6th February Fiskerton CE Primary School are celebrating Number Day.

Why Number Day?

Number Day helps us celebrate how important maths and numbers are in our everyday learning. Numeracy plays a key role across the school day: building confidence, problem-solving skills and a love of learning.

What will the children be doing?

Throughout the day, children will take part in a range of fun, engaging number-based activities in their classes.

We will also be promoting Times Tables Rock Stars, with children taking part in class and whole-school battles to test their skills and earn points for their teams!

Dress Up for Number Day!

We would love for children to come dressed in anything that represents numbers — this could be:

- A number or maths-themed T-shirt
 - A cap with numbers
 - Face paint, patterns or shapes
- Anything creative and fun linked to maths!

✧ We can't wait to celebrate Number Day with you — it's going to be a fantastic day full of numbers, learning and fun! ✧
